MULLIN JOHN, 16 Ann, is prepared to make guns of the finest quality, which he will warrant superior to anything imported (in shooting). Frank Forrester, in his "Field Sports of America," vol 2, p. 121, says: "I would rather employ him to build me a gun not to exceed $150 in price, than to buy any imported gun at a New York shop for $175, or import one myself at the same price. I have tested his work thoroughly, and can speak to its excellence and durability." See also the same work at vol. 2, p 144, and vol. 1, p 31 Also guns of his own make, and warranted above, from $50 upwards.

GAS WORKS.

C. R. WOODWORTH & CO.,

MANUFACTURERS OF PORTABLE GAS Works, No. 74 *Wall street, New York, and at Yonkers, N. Y.*

This Company is prepared to construct Gas Works of any capacity, from that required for a Private Dwelling, Hotel, Factory or Church, to such as will supply a Town or Village. The extreme simplicity of these works, their economy and perfect safety, recommend them to the public as well worthy of attention.

The material used for manufacturing the Gas, is a cheap Oil, made from Rosin, supplied at twenty cents per Gallon, and yields more, and richer, and purer Gas, than any other known substance. Each gallon of oil will produce over one hundred cubic feet of Gas, which is more than equal to two hundred feet of Coal Gas. The space required for a complete apparatus for family use, is 10×12 feet, and is put up on the premises for $350. Larger apparatus put up at proportionate prices. Any other information may at any time be had, by application to the Office of the Company, in person or by letter, accompanied always by a statement of the number of burners required, and the length of time they will be burning. This invention is no longer a matter of experiment; its practical utility & peculiar adaptation to the wants of those residing beyond the limits of City Gas, has been for more than two years tested, within, and in the immediate vicinity of our own City, and in all the principal cities in New York and Pennsylvania.

Special Notice to Banking Houses, Government Agents, and all other parties requiring Fire-Proof Buildings, and Thief-Proof Safes:

The proprietors for many years have given much attention to the construction of fire-proof buildings, and by practical experience (of which they have had much) they are fully prepared to give such information as will be of great importance to parties desiring to put up such buildings.

THIEF-PROOF & FIRE-PROOF SAFES

they have manufactured for many years, and after all their experience, they feel confident in saying, that those they are now making under I. L. CADY'S PATENT, are far superior to any ever made in this country. The great advantage that these possess over all others is, that the chilled iron, which is impenetrable, is placed between two plates of wrought iron, and so secured to them as to make separation entirely impossible, thereby giving a substance which cannot be cut, neither can it be broken by pressure or the expansion of heat in case of fire, which is sure to be the case with cast iron safes.

WATCHES AND JEWELRY.

J. F. has had thirteen years' practical experience in some of the best workshops in Europe; during the last five years he has made up to order a number of Watches for Sea Captains, Railroad Engineers and Conductors, by whom they have been tested for the past four years, both by sea and land; on Railroads running from 180 to 200 miles per day, erring only about 4 minutes in the year, which proves them superior to anything of the kind yet offered in this country. These watches are constructed on the most perfect principles and cannot be stopped or taken apart unless absolutely broken, for proof of which he has the pleasure of referring to the following named gentlemen:—

Mr. Augustus S. Jerome, Importer of watches, 171 Broadway, New York.
" G. S. Bishop, 3 Chambers st., New York.
" Michael Hackett, 55 Chambers st., New York.
" ——— Hagan, 544 Broadway, New York.
" Jno. C. Cherd, Engineer, N. Y. & N. Haven R. R.
" A. W. Hawley, " " " "
" F. S. Estman, Conductor, " " "
" Saml Rand, " " " "
" S. Hoyt, " " " "
" Elam P. A. Chesborough, Engineer, New London, Willamantic and Palmer Railroad.
" R. R. Ramsey, Engin'r, N. Lon. Wil. & Pal. R. R.
" D. F. Williams, Conduc. " " " "
" Thos. Elmore, " " " "
Capt. Braddock Keeney, New London, Conn.
" Joseph Every, " "
" C. L. Butler, " "
" Kenney, " "
" Blivin, " "
" Jas. Buddington, " "

Who has since brought home the Arctic Ship Resolute with the watch purchased from Mr. Foley, he having no Chronometer on board.

Persons who have got watches that cannot be made to keep time, will find it to their interest to give him one trial which will be sufficient to convince the public that he cannot be excelled in repairing or fitting up new watches for time and durability.

Persons wishing to obtain one of these watches, are requested to give one month's notice, as he will not deliver them unless properly adjusted.

The above principles will be punctually attended to, by which he hopes to gain the confidence of all who may favor him with their commands.

Cases Jointed, Works Jeweled and Chronometer Balances set in, in the best style.

All orders punctually attended to.

WILSON'S

STREET AND AVENUE DIRECTORY

OF THE

CITY OF NEW YORK.

(Corrected Feb. 15, 1855.)

Entered, according to Act of Congress, in the year 1855, by H. Wilson and John F. Trow, in the Clerk's Office of the District Court of the United States, for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling-house or store,—for instance, No. 80 ALLEN street,—on consulting the Street Directory (see ALLEN) you will observe that 68 Allen is on the right hand of that street and on the corner of Grand, and 88 Allen is on the right-hand corner of Broome: hence the desired number, 80 Allen, will be on the right-hand side of Allen street, between Grand and Broome.

Or suppose that you are going up Broadway and wish to take a cross street, so as to call at 128 Bowery, on examination (see BOWERY) of the corner numbers in the Bowery, you will observe that 122 Bowery is on the corner of the Bowery and Grand:—hence, by passing from Broadway through Grand street to the Bowery, you are near to the desired number, 128.

NOTE—The streets above Twelfth-street are divided by Fifth Avenue into East and West,—as E. 13th, W. 13th,—Eleventh-street is divided by Broadway into East and West, and Twelfth by Ganse-voort,—and the streets located as above described will be found, therefore, in this work, under East and West.

PATENT METALLIC PEN.

This Pen is made of an Amalgam, on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of steel pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper.

CAUTION.—To guard against Counterfeits, each and every Genuine Pen is stamped—"*J. F. McSwyny's Patent*, 1855."

Chemical Opinion and Analysis of Reed's Celebrated London Cordial Gin.

LABORATORY AND CHEMICAL OFFICE,
No. 18 Exchange Place, New York, March 4th, 1856.

Mr. REED: Sir,—I have submitted to close examination the samples of London Gin, manufactured by you, and purporting to equal the English article. I find on comparison with samples of Hodge's and Burnett's, previously examined by me, and which I know to have been imported direct, that the quality of yours is by no means inferior to their celebrated compounds, while the perfect method you possess of rectifying insures an article of a higher degree of purity and flavor, when it has the equal advantage of time to soften it, than much of the so-called imported London Gin. As a medicinal agent and cordial, under proper advice, it may be depended upon, from the care with which you select the essential oils combined with it in the distillation.

Yours, respectfully, ISAIAH DECK, M. D.,
Consulting and Analytical Chemist.
